

Mid-America Toxicology Course
April 24-29, 2016, Kansas City, MO

Dear Colleagues

I invite you and your colleagues to attend the Mid-America Toxicology Course in Kansas City, Missouri, to be held April 24th through 29th, 2016 at the Kansas City Marriott Downtown (Kansas City, MO).

This series of lectures in Toxicology will emphasize the basic science of the discipline rather than a how-to-do-it approach. It is designed to help people prepare for the American Board of Toxicology accreditation examination. However, the course will also serve as an intensive introduction to Toxicology for interested scientists.

Please feel free to share this information with your colleagues and the community of toxicologists.

For detailed information and to register, go to:
